

## **CHEVRON SERIES**

*Herringbone Waffle Sponge  
Underlays for Carpets*

### **PRODUCT DESCRIPTION**

The **Chevron Series** comes with a special herringbone design that gives a softer, luxurious feel to your hard floors. The double channel of this waffle design promotes freer air circulation and lessens dampness and condensation. This is specially suited for high humidity areas and cold weather conditions.

This waffle sponge rubber underlay is meant for general commercial and hospitality use. Unlike other similar looking ones, the **Chevron Series** is made from 100% natural rubber and is environment friendly. It is suitable for under-floor heating. Its herringbone construction provide extra underfoot comfort and helps to prolong life of the carpet. It provides good support for quality carpets with stable backing such as Axminster and machine tufted carpets.

The **Chevron Series** is highly recommended for use in hotel guest rooms, luxury condominiums, restaurants, small function rooms, lounges and private homes where luxurious comfort is appreciated. It is suitable for heavy contract use with the End Use Classification (BS 5808: 1991) C/U, Contract Use.

Our underlays conform to the British Standard BS5808 for underlays with the European Regulation (EC) N1907 / 2006 on REACH.

### **MANUFACTURER'S WARRANTY**

A manufacturer's certificate of quality and warranty is available on request upon completion and due inspection of the project. This is important to ensure that you receive the authentic product and that no inferior quality substitutes are used for your projects. They are guaranteed for the life of the carpet when used in the above-recommended applications.

**PUT YOUR FOOT DOWN ON NATURAL COMFORT**  
**INSIST ON LH UNDERLAYS FROM MALAYSIA**
