

## **FIREGUARD SERIES**

### *Fire-retardant Underlays for Carpets*

#### **PRODUCT DESCRIPTION:**

The Fireguard underlay is a quality heavy-duty underlay that provides firm support for quality heavy-duty carpets besides providing protection against the spread of flames in the event of fire. Its special close pattern construction makes it suitable for heavy traffic conditions which are particularly demanding on your carpet due to its fire-retardant properties, Fireguard is used in public areas where public safety is of utmost importance such as banquet halls, entertainment centres, theatres, cinemas and hospitals.

Fireguard flame retardant underlays give special protection against flame spread according to BS4790 standards. Fireguard underlays is distinct from other flame retardant underlays because of its halogen free composition as it uses natural minerals as flame retardants. It contains no dangerous fumes or antimony trioxide, a substance that has been banned in some countries. Thus it enhances fire safety standards for buildings and enclosed areas where the concern for public health and safety is a top priority.

Our underlays conform to the British Standard BS5808 for underlays and comply with the European Regulation (EC) N°1907/2006 on REACH.

#### **MANUFACTURER'S WARRANTY**

A manufacturer's certificate of quality and warranty is available on request upon completion and due inspection of the project. This is important to ensure that you receive the authentic product and that no inferior quality substitutes are used for your projects.

# Product Specifications

## SPECIFICATION:

Backing Material : Polyester Spunbonded Fabric

Raw Material : 100 % Natural Rubber

Construction : Waffle Sponge

Origin : Made in Malaysia

Class/Quality	Colour	Nominal Thickness (mm +/- 0.5)	Density (g/m <sup>2</sup> )	Roll Dimensions (m)	Roll Size (m <sup>2</sup> )
Fireguard 5	Red	5.0	1,991	1.37 x 11.00	15.07
Fireguard 6	Red	6.0	2,389	1.37 x 11.00	15.07
Fireguard 7	Red	7.0	2,986	1.37 x 11.00	15.07

### Note:

Densities are indicative values only as there may slight variations within normal manufacturing tolerance due to the product being made from natural materials. However, such variations will not affect the quality and performance of the product. Loading quantities also may vary depending on the type of backing materials used.
