

REGALIA SERIES

Underlays for Carpets

PRODUCT DESCRIPTION:

The Regalia Series are premium grade natural rubber underlays designed to provide the best support and protection for your broadloom carpets. A wide range of underlays is available to cater for the various requirements of end users ranging from domestic, contract and heavy duty use. With a higher density compared to other types of underlays, they provide extremely firm support for quality heavy-duty carpets with stable backing that do not expand with use such as Axminster carpets or machine tufted carpets.

Its special close pattern construction makes it suitable for heavy traffic conditions which are particularly demanding on your carpet, such as those found in ballrooms, convention centres, hallways, banking halls, shopping complexes and heavy movement areas such as wheeled traffic areas. It is a proven product whose luxurious comfort can also be found in most hotels, commercial offices and palaces.

Our underlays conform to the British Standard BS5808 for underlays and comply with the European Regulation (EC) N°1907/2006 on REACH.

MANUFACTURER'S WARRANTY

A manufacturer's certificate of quality and warranty is available on request upon completion and due inspection of the project. This is important to ensure that you receive the authentic product and that no inferior quality substitutes are used for your projects.
